## Security Features from Transparency, credibility perspective.

The security features are implemented to maintain the credibility and transparency to student and university at all levels. The IP based tracking helps us to identify the student / user who has logged in along with related aspects.

### Admission:

- The student has to verify himself / herself through Aadhar Card Validation Process.
- After verification through the Aadhar Card OTP number, student proceed for registration process through the Account created for the student.
- Student enters information for all relevant fields necessary for registration process.
- Student upload all the necessary documents as per mandatory requirement which includes Aadhar card/govt id photo proof along with passport size photo etc.
- After uploading the documents in student account the student proceeds for making the online fees payment.
- The student downloads the pre-filled application form based on inputs entered by the student.
- The student signs the admission form and the same to university for processing the application.

## Registration Process:

- The students visit the website and after the online counselling process is done by our counselors, the student applies for the online programs.
- Student registers online on provisional basis by signing up after clicking "Apply Now"

The student signs in with name, email id, mobile number and selects the program.

- After signing up the student gets the access to "My Account" to provisionally register with the university.

- The student updates his Aadhar number and receives an OTP from Aadhar Portal which he enters in the system during registration.
- After Verification, the system pulls all the relevant information from Aadhar portal and the complete details are captured by the system.

After uploading all the required documents, the student pays the fees through the online payment gateway integrated with the system. The fees have been mentioned on the website for every respective program.
