Feedback Mechanism

Centre for Distance and Online Education, Jagan Nath University, Jaipur is following a sound feedback mechanism to improve the quality of services provided to learners. This is a continuous process, where we collect feedback from students to improve the services and bridging the gaps. Feedback is collected through personal interaction with students and end semester examination.

Online feedback is also collected from all the students in mid of the semester. Feedback is collected on well-designed questionnaire and its feedback is passed on to Center for Internal Quality Assurance (CIQA).

Feedback is also taken from industry experts and external senior academicians to improve the design, development, delivery and continuous evaluation. It helps in making learner more employable.
